Sérgio Santos

Front End Developer

Fueled by a passion for Web Development and being well-versed in Front End Technologies, I strive to blend the art of design with the skill of programming in order to deliver an immersive and engaging experience user experience. I am always eager to tackle on more complex and exciting projects.

Work History

2022-07 - Present

Software Engineer

SmartMed B.V., Porto

- Development and implementation of solutions for a pharmacy app, leveraging my expertise in Angular2, SCSS, TypeScript and RxJS
- Used directives, modules and Angular Material UI to create reuseable components to use across the project
- Performed Unit Testing using Jest
- Created mock services and data to accelerate front-end development while awaiting RESTFul APIs to be developed
- Worked with version control GIT to manage the code repository

2022-02 - 2022-05

Front End Developer

_Everywhere Team, Internship

- Website redesign to improve navigation and visual appeal
- Development of websites based on the design made in Figma, with the help of libraries such as React, Styled-Components and SASS.
- Optimized page elements to reduce loading time and debugged code to ensure cross-browser usability

2016 - 2020

Waiter

Hotel Dom Henrique, Porto

- Distribution of tasks and coordination of the restaurant team's activities in order to provide responsive and high-level service to customers.
- Direct service to the public to serve food and beverages efficiently, providing the necessary utensils for each type of dish.

Education

2021 - 2022

FullStack Web Developer

FLAG, Porto

Relevant Coursework: UI/UX, Agile Methodologies, Responsive Web Design, Client-Side Development, REST APIs and Web Programming.

2011 - 2015

Hospitality & Tourism, 12th grade

Escola Secundária de Rio Tinto, Porto
